DS-8X Shifter

Welcome to the Direct Drive Revolution

Dreams of Racing Fueled By Passion

Coming from modest backgrounds, but infected by the need for speed.

Although we had some talent in real life racing, the lack of funds to fuel that passion was not enough to satisfy our addiction as real life motorsports was and is still beyond the reach of many. We were however determined to find ways to improve our skills and make practice effective yet affordable.

So it started with us asking ourselves, "How do we find ways to satisfy this goal in the most immersive ways?"

In 2018, fueled by this passion and armed with advanced degrees in engineering and control systems, SIMAGIC was born.

We went about developing the kind of wheel base we wanted and needed... it had to be a direct drive for unmatched realism, yet, affordable. Easy to use and built with high quality components to last. Real carbon fiber, real metal where possible; high quality components, no compromise. After all, we were in Shenzhen, the Silicon Valley of the East, factory to the world, the talent, resources, were all here. While we were at it, we thought to ourselves, why not make it just like real race cars with a motorsports grade QR system. It's never been done before so we had to develop new ways of power delivery and data communication to do this. The result is the much loved and flatteringly imitated QR system and 2.4G wireless communications system that have become so familiar in sim today.

Aug 2018, The M10 was introduced to the world and it catapulted SIMAGIC into the consciousness of sim racers all over. SIMAGIC became the subject of memes...

It has been 3 years since and what followed after were GT Wheel Series, FX wheel series, a Servo Base series, Pedals, Sequential Shifter, handbrake and more, the SIMAGIC ecosystem is only just the beginning.

3 years is neither short nor long. Short for the amount of innovation and products that we have developed, long enough to have proven that we are here for the long haul and our products have stood the test of time and our commitment to all who have believed in us.

One thing remains unchanged, we started with motorsports as a passion and we will continue to drive this point in every product we develop and every innovation we come up with. Everything we do is benchmarked and tested by real drivers who believe in the art of sim as a tool for real life driving. We will continue to commit ourselves to being the choice of real drivers and those who strive to be one. This will always be the one thing that sets us apart from everyone else. The game just got seriously fun...so KEEP RACING!

Safe Operation

- * **Power-on instruction: before turning on the power, make sure that the power cord is connected to the wheelbase. Only unplug the power cord when the wheelbase is switched off.**
- * It is strictly forbidden to expose the device and its power supply to rain or humidity in order to avoid short circuit and electric shock that may cause device malfunction and fire.
- * Desired temperature of operation is 15°C-35°C.
- * The recommended operation time of the wheel with continuous force feedback activity is 1 hour. Excessive use may cause health risks. We suggest taking a 5-minute break every 20 minutes. Do not drive for more than 2 hours a day.
- * Although this product has force feedback configuration, children under 13 years old must be under parental supervision to complete the configuration. Parental guidance is required to monitor children's use of the device.
- * This product contains small pieces and is not suitable for children under 13 years old to use alone.
- * When you use it for the first time, please adjust the force feedback from minimum to a level you are accustomed to.
- * In the game, if the Force Feedback previously set is beyond your control, please stop the game immediately and adjust the force feedback parameters.
- * The wheelbase contains components that cannot be repaired by the user. Opening the casing is forbidden and may cause harm to people or property.
- * Do not open the casing of the device, as it will void the warranty.

Electrical Safety

- * Use only the power supply and power cord that came with your wheelbase, which is important to protect your safety, rights, and interests.
- * Do not use a non-standard power supply and power cord.
- * To ensure safety, replacements may only be issued from an authorized repair center.
- * Do not use non-standard power sources, even if the voltage and frequency appear acceptable.
- * To avoid product damage, use only AC power with a standard wall socket.
- * Do not expose your wheelbase to sources of heat.
- * Unplug the power cord of your wheelbase when unused for long periods of time.
- * If the wheelbase is found to have any malfunctions, stop using it immediately and contact SIMAGIC Official or authorized center for help.
- * Please subscribe to SIMAGIC official website and social platforms for any update regarding product information.

A One-year Limited Warranty is offered on SIMAGIC products. SIMAGIC guarantees that this Product is free of defects in materials or workmanship under normal use during the Limited Warranty Period.

This Limited Warranty Period commences from the date of purchase. The buyer must retain the warranty card and receipt, which will be required by your Purchase Site or SIMAGIC Authorized Distributors, as a condition of receiving warranty service. The buyer is guaranteed a warranty repair service within the Limited Warranty Period.

During the Limited Warranty Period, SIMAGIC will, at its sole discretion, repair or replace any defective parts or components of the Product.

Obtaining Warranty Support

SIMAGIC products are sold through a distribution network. The network is built upon careful selection of reliable distributors to provide valuable services to the customer, including providing after-sales service for hardware issues, helping optimize gaming experiences, and connecting with SIMAGIC HQ.

1. To request a Warranty service, please contact the Authorized Distributor you purchased from.
2. When purchasing from a second-hand dealer, make sure to obtain the warranty card and receipt from the dealer.

Any product that is NOT originally sold by a SIMAGIC Authorized Distributor will automatically be excluded from the Limited Warranty Service.

Many unauthorized resellers do not fully disclose the risks associated with buying from them.

Please be cautious when making your purchase.
